

Cyber Security

We provide critical Network operations services, RMF controls and compliance, Infrastructure situational awareness tools, and Defensive Cyber Operations practices to ensure information protection.

DevSecOps

We were an early adopter of combining DevOps engineering development, cybersecurity, and information technology operations to shorten the systems development lifecycle while delivering secure, agile solutions that align with business objectives.

2TechJV, LLC is SBA Certified & Veterans Affairs Verified SDVOSB Joint Venture

2TechJV, LLC delivers on the successes of two proven technology leaders through the combination of TechAnax LLC and OBXtek Inc.

Enterprise IT Solutions

We improve the delivery of Enterprise IT Solutions, allowing our clients to plan, deliver, maintain, protect and enhance technology, to advance the efficiency and effectiveness of mission objectives.

Cloud Services & Data Management

We will work with you to define and establish the appropriate on-prem, hybrid, and/or pure FedRAMP cloud solution to meet your organizational requirements.
